Re: In the Matter of Review of the Commission's Broadcast and Cable Equal Employment Opportunity Rules and Policies, Second Notice of Proposed Rule Making, MM Docket No. 98-204, December 21, 2001

Dear Ms. Dortch:

Pursuant to Section 1.1206(b) of the Commission's Rules, this letter is to provide notice of an *ex parte* meeting in the above-referenced docket. On June 7, 2002, Thomas E. Fahy of Broadcaster Compliance Services ("BCS"), provided written materials to Hon. Michael P. Powell.

These written materials generally discussed the substance of the Comments filed on behalf of BCS with the Commission in this proceeding on April 15, 2002. This included a discussion of the capabilities of BCS to send notices of all available jobs to a diverse network of organizations and institutions for dissemination to their constituents and members. The materials discussed the support services BCS can provide to implement the EEO Rule in an efficient, effective and economical manner.

Pursuant to the Commission's Rules, these written materials and this *ex parte* Notice are being filed with the Commission's secretary for inclusion in the public file. Please do not hesitate to contact me at (202) 828-5846 should you have any questions regarding this filing.

Very truly yours,

Bracewell & Patterson, L.L.P.

# BROADCAST COMPLIANCE SERVICES

June 7, 2002

The Honorable Michael K. Powell  
Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

RE: Appointment request to demonstrate Broadcast Compliance Services

Dear Chairman Powell:

Broadcast Compliance Services (BCS) was created to provide unprecedented recruiting outreach for every broadcaster or cable operator, and to automate record keeping and reporting -- thereby reducing or eliminating the oft-cited burden and expense of compliance with the Commission's proposed EEO Rules.

Historically, the greater the outreach the Commission has mandated, the greater the outcry from the affected broadcasters. As a result, many broadcasters and cable operators have considered such rules inherently adversarial and have responded negatively, begrudgingly expending the bare minimum effort and commitment to achieve technical compliance.

Services like those provided by Broadcast Compliance Services (BCS) can alter that dynamic by spreading the cost of improved and automated methodology over a large subscriber base, thus enabling the industry to achieve broader, quicker, and less expensive outreach than any previous EEO compliance efforts. The Commission appeared sensitive to this when they specifically made reference to such outsourcing in the Reconsideration Order of the last Rules (FCC 00-338) in November, 2000.

**Serving Broadcasters in your community and across the nation**

106 Old Court Road • Suite 300 • Baltimore, MD 21208 • 866.227.4336 • [info@BCS-ok.com](mailto:info@BCS-ok.com)

The Honorable Michael K. Powell  
June 7, 2002  
Page 2

In the current proceeding, some proponents suggest that the Commission should allow job vacancies simply to be posted exclusively on the internet because the internet is everywhere and millions of people have access to it. True, this approach would lower the burden on licensees. But it would also lower the bar on outreach. As some commenters on the proposed rule have noted, not only do many internet job sites charge job seekers and/or employers for access to listings, but they lack the mechanism to bring jobs and applicants together. Typically, internet job listings sit passively on a website, awaiting the chance that someone may come "surfing" by. Measuring the effectiveness of these sites is a challenge: although the sites can measure the number of visits, such "hits" aren't jobs or even necessarily job seekers.

In comparison, services like those provided by BCS employ "push" technology to drive job listings out to various and diverse community organizations who help real people get real jobs. The process is inherently more sophisticated and more productive. Effective and broad EEO outreach demands more than just a posting service. We believe it is essential that the Commission is able to accurately predict the level of meaningful outreach which can be anticipated from various methodologies.

We look forward to demonstrating our service to you and showing you how BCS can benefit both the Commission, in adopting rules; and the affected employers, in implementing the rules in a manner that benefits them through improved access to applicants and job seekers who have improved access to career opportunities in broadcasting and cable operations. Simply stated, BCS' market-based solution offers improved results through a more effective, efficient and economical service.

I will call your office this week to request an appointment and look forward to the opportunity to demonstrate the mechanics and specifics our service can provide.

Sincerely,

Thomas E. Fahy  
Managing Director

## BROADCAST COMPLIANCE SERVICES

*Tired of having your employees  
spend endless hours filling out  
EEO forms and stuffing  
envelopes, then wondering if  
you have done enough to satisfy  
government regulators and  
special interest groups With  
**BCS**, you won't have to  
wonder anymore Here's why*

Everyone has one question about **BCS**:  
“Why didn't someone think of this before?”

An industry-inspired solution, it's the  
painless way for your stations to achieve  
best practices in employment outreach.

For a hands-on demonstration of  
**BCS** at your station,  
please contact:

Nancy Welch Almgren: (410) 533-8610

Tom Fahy: (202) 337-6954

Chip Weinman: (443) 286-4000

or call our office toll free: (866) 227-4336

E-mail: [info@BCS-ok.com](mailto:info@BCS-ok.com)

**Compliance**

**Documentation**

**No Surprises**

# BROADCAST COMPLIANCE SERVICES

## EASIER COMPLIANCE

**BCS** is an on-line subscription service which provides all the tools necessary for unprecedented recruitment plus tracking, monitoring, reporting, and assessing your employment outreach efforts. The system stores and compiles your data, even fills out your forms – FCC, OFCCP, EEOC – whatever the government may require. You only have to deal with your data one time.

## PROOF OF PERFORMANCE

Subscribing to **BCS** gives your stations protection from potential claims that you have not done enough to conduct a broad recruitment outreach effort by providing instant on-line documentation to demonstrate, to regulators and concerned organizations alike, the extent of your efforts to reach out in filling available positions at your stations. The system even tracks who received your job notices and who responded.

## LOWER COST

Currently, you probably assign your best administrator to EEO to make sure it gets done right. Your best person, stuffing envelopes? That's a big investment in valuable manpower. With **BCS**, you can free up your personnel for more station-oriented tasks. What's more, **BCS** probably costs less than you're paying now for EEO-related postage alone.

## WORKFORCE DEVELOPMENT

**BCS** is the ultimate workforce development tool because it employs a proprietary database of over 70,000 geographically coded resources to provide non-traditional sources of applicants far beyond the outreach capabilities of any local station or group. This larger applicant pool means more qualified candidates for jobs.

## NEW REVENUE

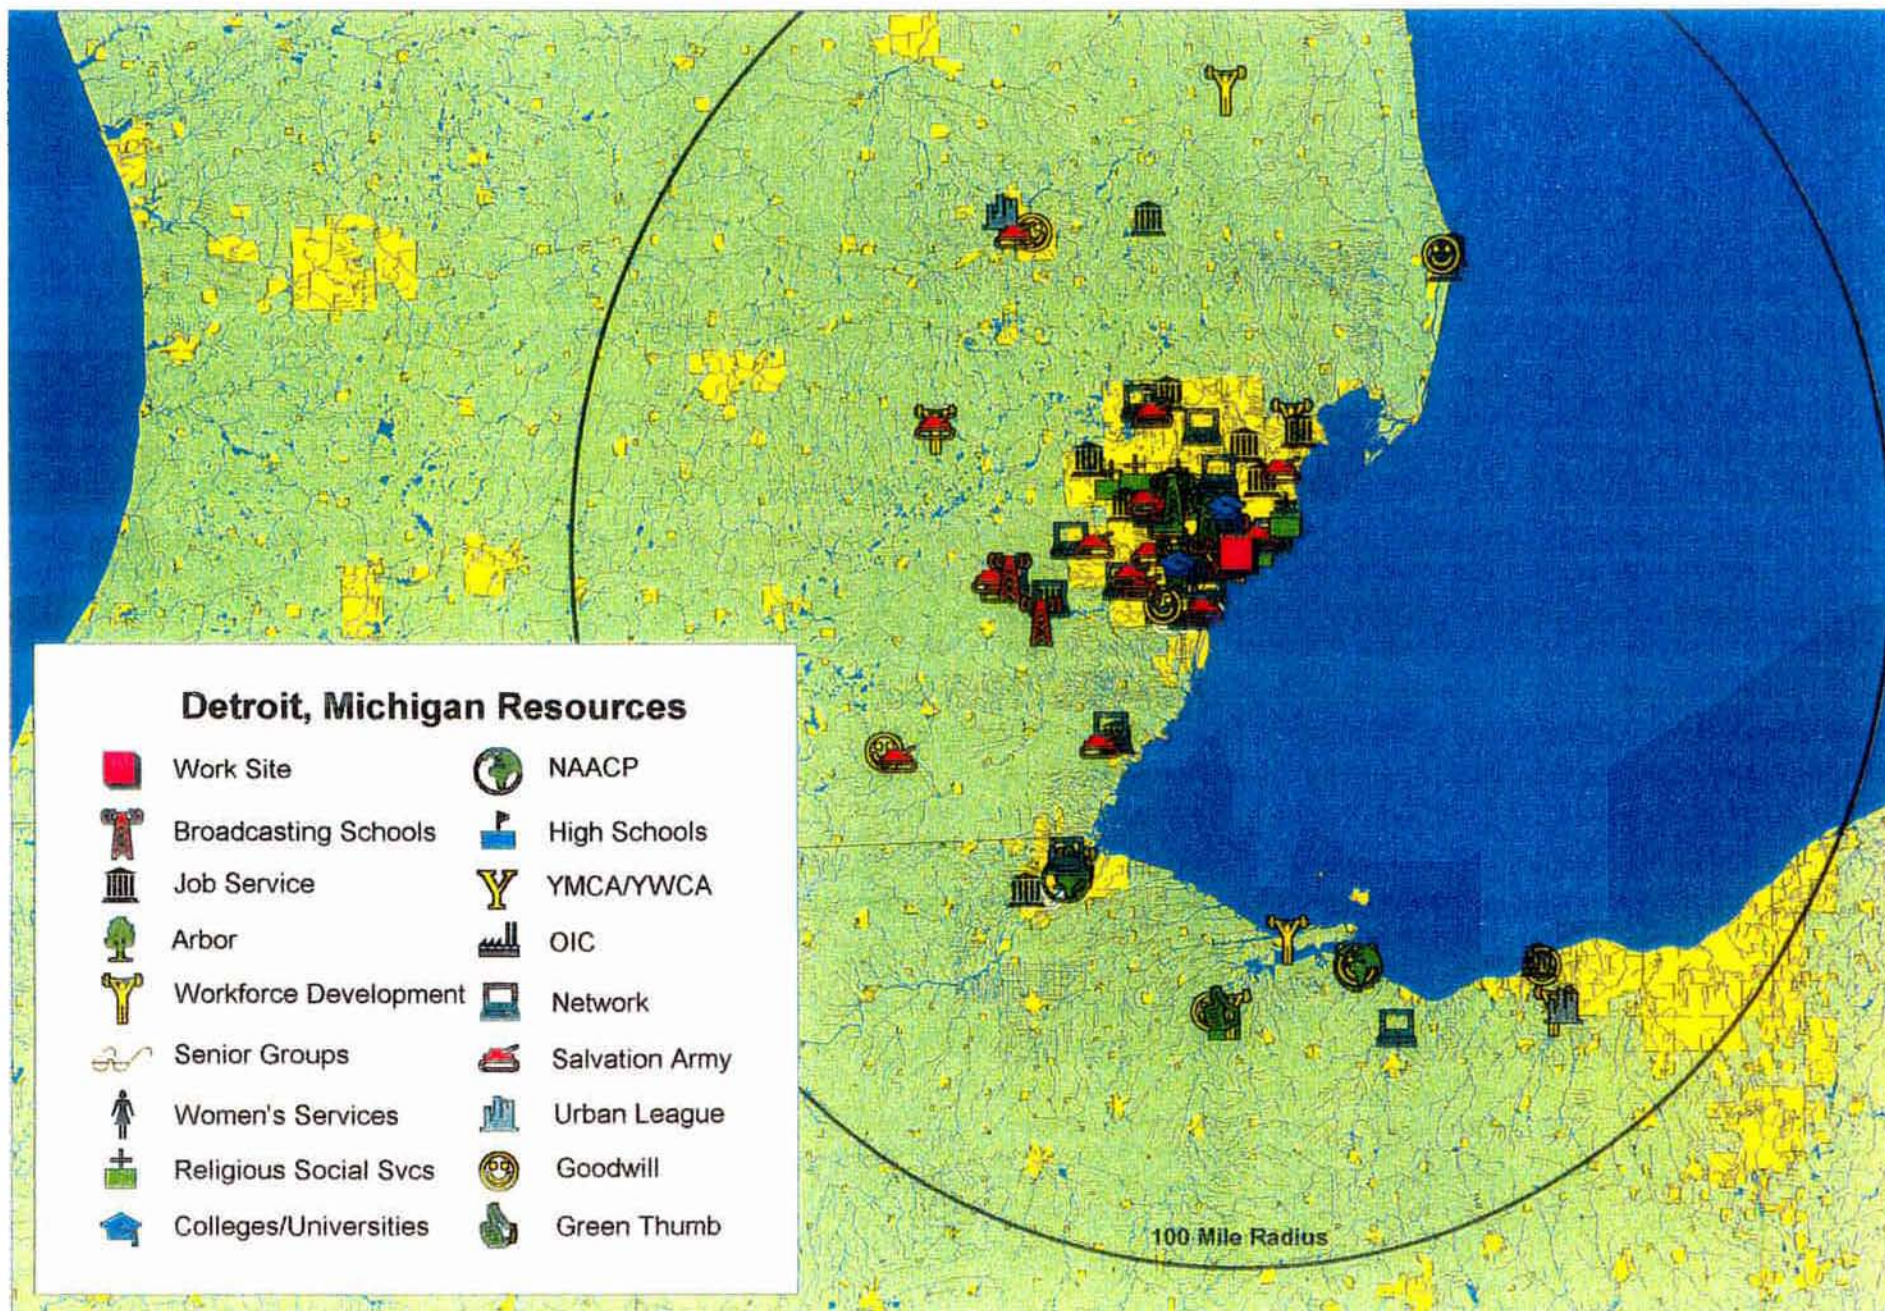

**BCS** can screen applicants, on a contingent fee basis, to determine if they qualify to trigger employer tax credits, which can yield thousands of dollars per new employee.

## ALWAYS CURRENT

As government regulations change, your stations may be required to file new forms or perform new EEO-related tasks. **BCS** "remembers" your profile and automatically adapts to the rule changes which affect you, right down to printing the new completed forms for your signature.

GETTING STARTED

# Broadcast Compliance Services

## Subscribing to BCS is easy

**All you need is an Internet connection and browser.  
You can be up and running in a matter of minutes.**

---

Very little of your staff's time is required to develop and maintain your account with BCS. Just copy your existing employee data directly from the last FCC employment form (395-B) filed by your station. Then enter the recruitment resources you've been using up to now. You may already have saved this information electronically in your HR database or in a simple spread sheet.

## INTRODUCTION

# Broadcast Compliance Services

## Welcome.

This website is your portal to a new and streamlined approach to employment recruitment and EEO compliance.

Broadcast Compliance Services (BCS) is built on this simple concept: If diversity is good business, then making EEO recruitment and documentation painless and inexpensive is even better business. BCS is a state-of-the-art outreach, record-keeping, and reporting service which:

- Dramatically broadens the scope of your recruitment
- Reduces the amount of time, effort and cost associated with tracking and reporting your employment outreach efforts
- Provides instant on-line documentation that you have done everything possible to conduct an effective EEO outreach effort
- Reduces litigation and compliance risks
- Provides on-demand reports -- as required, or at the touch of a button

**OUTREACH MANAGER**

# Broadcast Compliance Services

## The Outreach™ Manager

**allows access to Broadcast Compliance Services' exclusive internet-based recruitment and reporting engine for broadcast and cable human resource professionals.**

By entering their station call letters and password, HR managers can access their account from any computer connected to the Internet. With the click of a mouse they can, among other things:

- Create and post a job vacancy announcement.
- Instantly notify targeted BCS resources of that posting.
- Send periodic diversity initiative notifications
- Review account history of jobs posted.
- Review all recruitment resources where job announcements were sent.
- Send announcements of job fairs.
- Use our customer support services.

Utilizing the best ideas and collaborative input from industry leaders in both conventional and internet-based recruitment and research, BCS has created a service which:

- Makes the right information quickly accessible to your staff.
- Increases capacity to handle routine transactions electronically.
- Offers simple, user-friendly on-line management reports and tools.
- Reduces manpower investment for workforce development.
- Reduces your overall EEO recruitment costs.

WHO WE ARE

# Broadcast Compliance Services

## A Service Company

**created to help Broadcasters and Cable operators find  
real people for real jobs, painlessly and inexpensively.**

Founded by individuals who bring together years of experience in broadcasting, human resources management, and government relations, Broadcast Compliance Services employs a system which has been field-tested by Fortune 500 companies for over twenty years to provide automated employment outreach and record-keeping services which meet the needs of both employers and employees. The service expands your outreach efforts and reduces your costs associated with EEO recruitment and workforce development.

BCS employs proven recruitment tools plus a proprietary database of over 70,000 resources -- comprised of community-based, faith-based, educational, and professional development organizations -- to provide non-traditional sources of applicants far beyond the outreach capabilities of any local station or cable operator. Your job vacancy announcements will now reach more qualified candidates in your community and across the nation.

The service organizes all your outreach data, documenting the extent of your efforts to reach out in filling your job openings. It's all there for you when and where you need it, at work or at home, on an easy-to-use web site. BCS is a powerful new tool for human resource professionals: a versatile, online 'one-stop-shop' for workforce development, diversity in recruitment, and EEO reporting/documentation.

BCS is an innovative industry-created solution, designed to meet and exceed not only past FCC outreach rules, but also the real-world rules which dictate that diversity is good business.

**BENEFITS**

# Broadcast Compliance Services

## BCS is more **than just a compliance format.**

It's a system that *really works* — the most effective methodology ever sanctioned by the FCC to assist broadcasters and cable operators in achieving the broadest possible outreach for job dissemination.

The FCC addressed this issue in the Reconsideration Order of its last EEO rules (November, 2000) when it wrote: "...we intend to afford broadcasters flexibility in designing recruitment techniques that will result in broad outreach. For instance, an outside service might assist the broadcaster in identifying productive recruitment sources, facilitating the delivery of vacancy notifications to such sources, and/or preparing reports to better enable the broadcaster to track and monitor the results of its recruitment efforts. However, regardless of the method employed, each broadcaster remains individually responsible for compliance with the recruitment, recordkeeping and reporting requirements..." (FCC 00-338).

BCS was created to make EEO recruitment/documentation painless and inexpensive by providing *unprecedented* outreach — all of it tracked and documented, including applicant responses (and their sources), interviews, and hires — and storing and updating your data so that you can print out comprehensive reports from any computer connected to the internet. BCS is the best safeguard broadcasters can have at this time and in the future.

The BCS Advantages:

- Straightforward EEO recruitment and documentation — a new and innovative private-sector solution.
- Workforce Development - Expands the scope of your recruitment efforts to reach more qualified applicants than ever before.
- Reduces litigation and compliance risk.
- Proven costs savings (from postage alone).
- Frees valuable staff time.
- Reduces staff and employee frustration.

Employer tax credits may also be available to your station. BCS can automate the process of identifying these opportunities and collect the credits for you.

# STRUCTURE

# Broadcast Compliance Services

**BCS** has developed unique components which work in the background to make The Outreach™ Manager powerful, yet simple to use

The heart of the service is BCS' proprietary recruitment database of over 70,000 resources. To maintain this huge – and growing – database, BCS agents continuously call every contact on the list for changes and updates. Because of this unique effort, the BCS database is constantly renewed and improved, yielding a wealth of community-based, faith-based, educational, and professional development organizations which provide non-traditional sources of applicants far beyond the outreach capabilities of any station or group of stations.

- **Local Level** – A geographical information system which can pinpoint the longitude and latitude of both the stations seeking to reach out and the local resources that are trying to place minorities and women into the workplace. The geo-coded system works equally well for stations in urban, suburban, and rural areas.

- **Regional/National Level** – A specific dissemination of listings for each mid and upper-level category opening, as appropriate, to job banks, educational and professional development organizations, and media trade groups whose membership includes substantial participation of women and minorities.

- A proprietary software program, utilizing multiple databases running on an SQL server, which accepts notices of job openings, matches the station locations with the resources, and automatically transmits the notices to those resources. Resources which lack email capability are notified by fax, and resources which lack email and fax capability are notified by mail.

- An internet job bank service, listing every available broadcasting job at every participating station in the nation – and linked to every state and federal employment service and a host of special sites such as the Department of Labor's America's Job Bank. Any man, woman, or child who wants to apply for a broadcasting job anywhere in America can do so through the system.

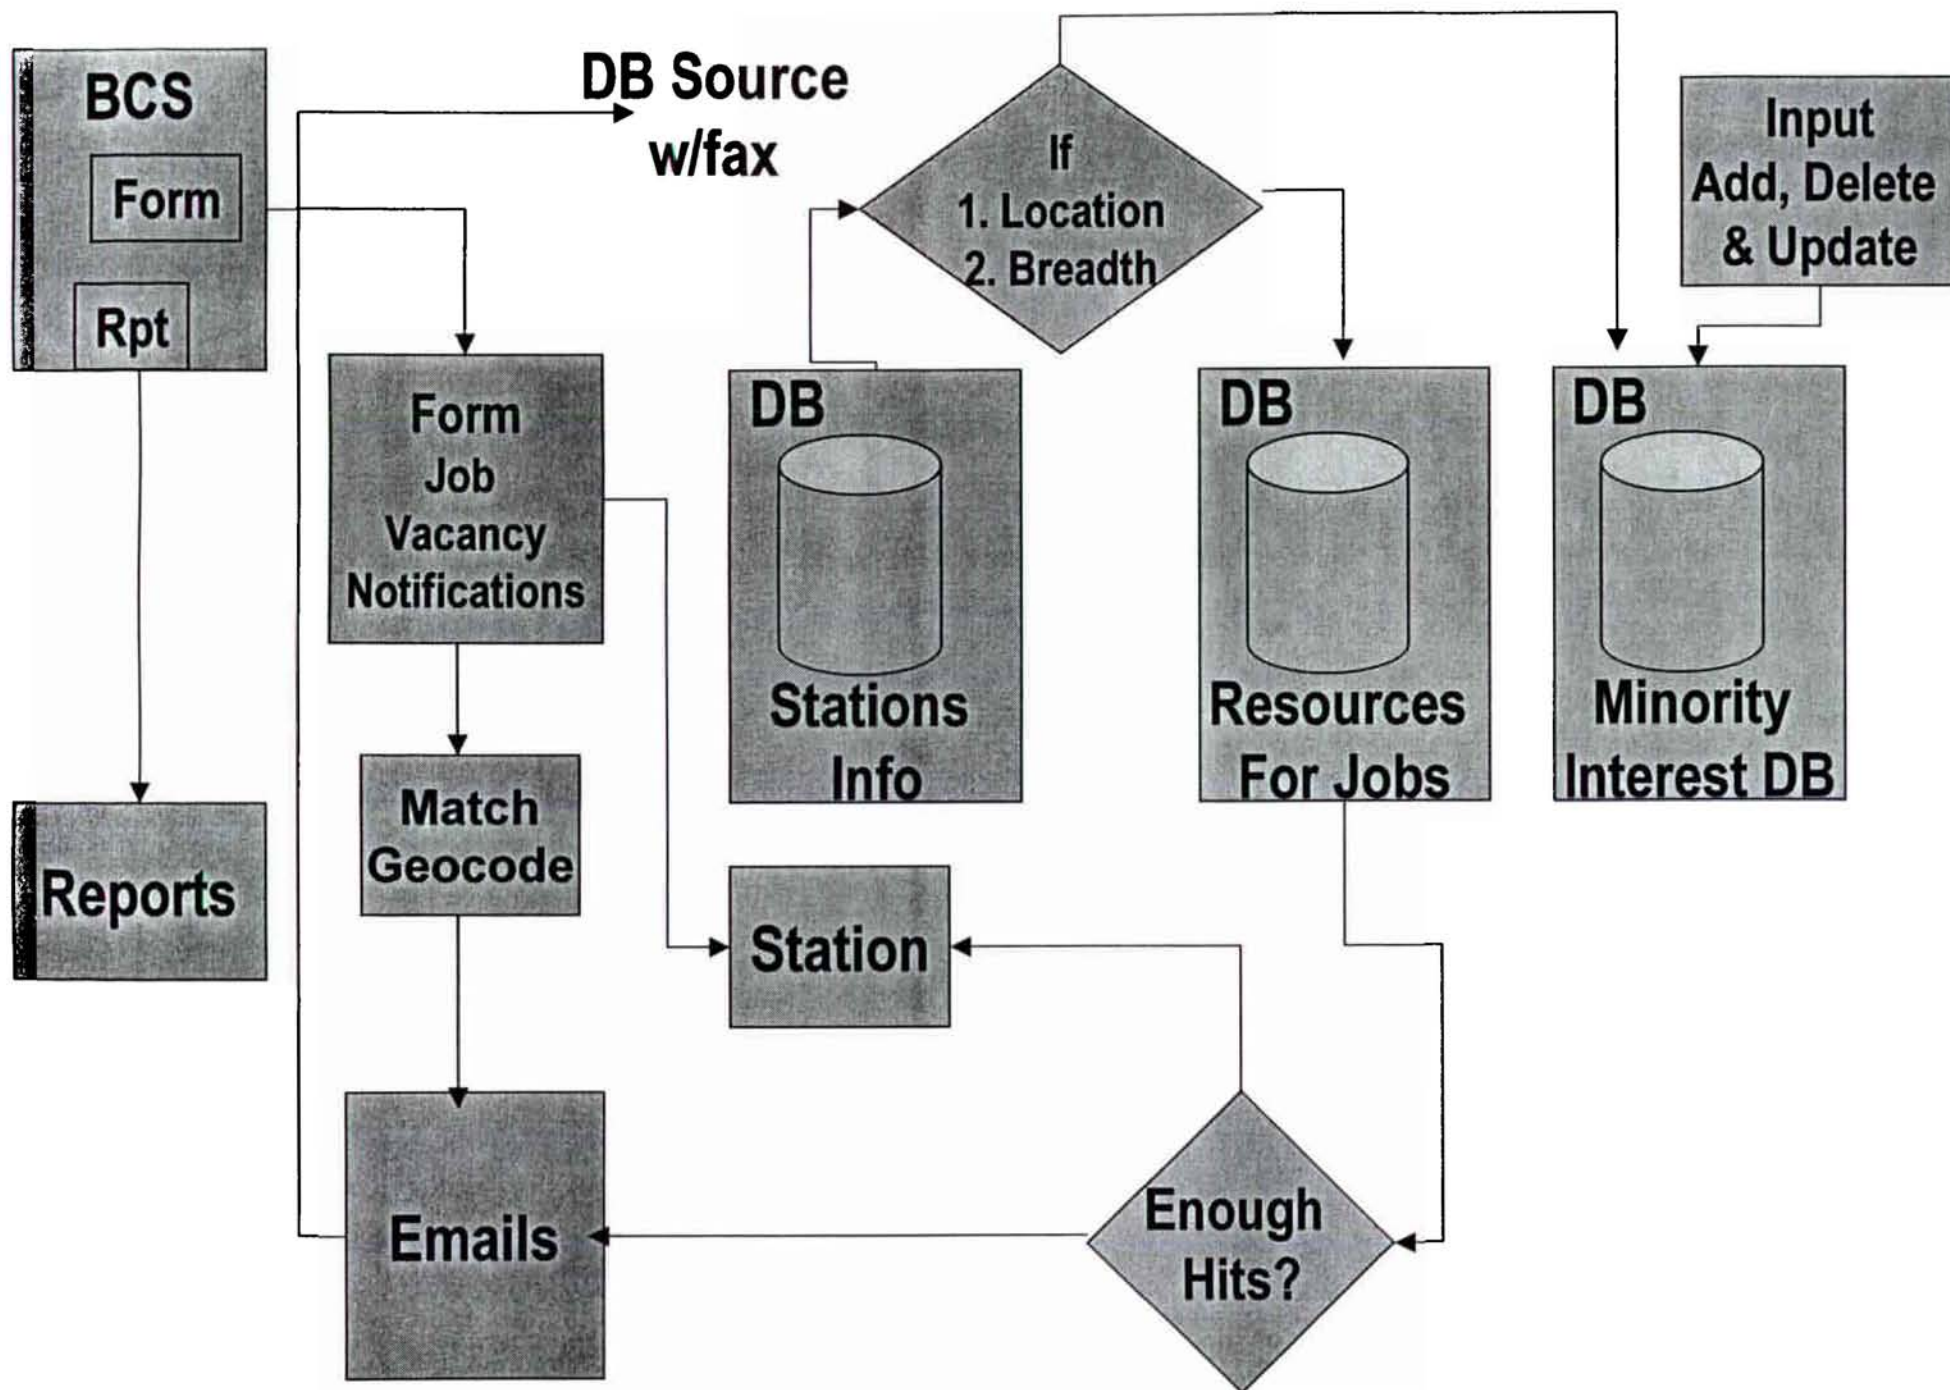

- A "reverse search" capability which can put an applicant's resume in the hands of stations located where the applicant seeks employment – across town or across the country.

- Notification of *all* organizations requesting broadcast job listings, so that any such organization requesting listings from any station in America will be notified of listings for *every* participating station.

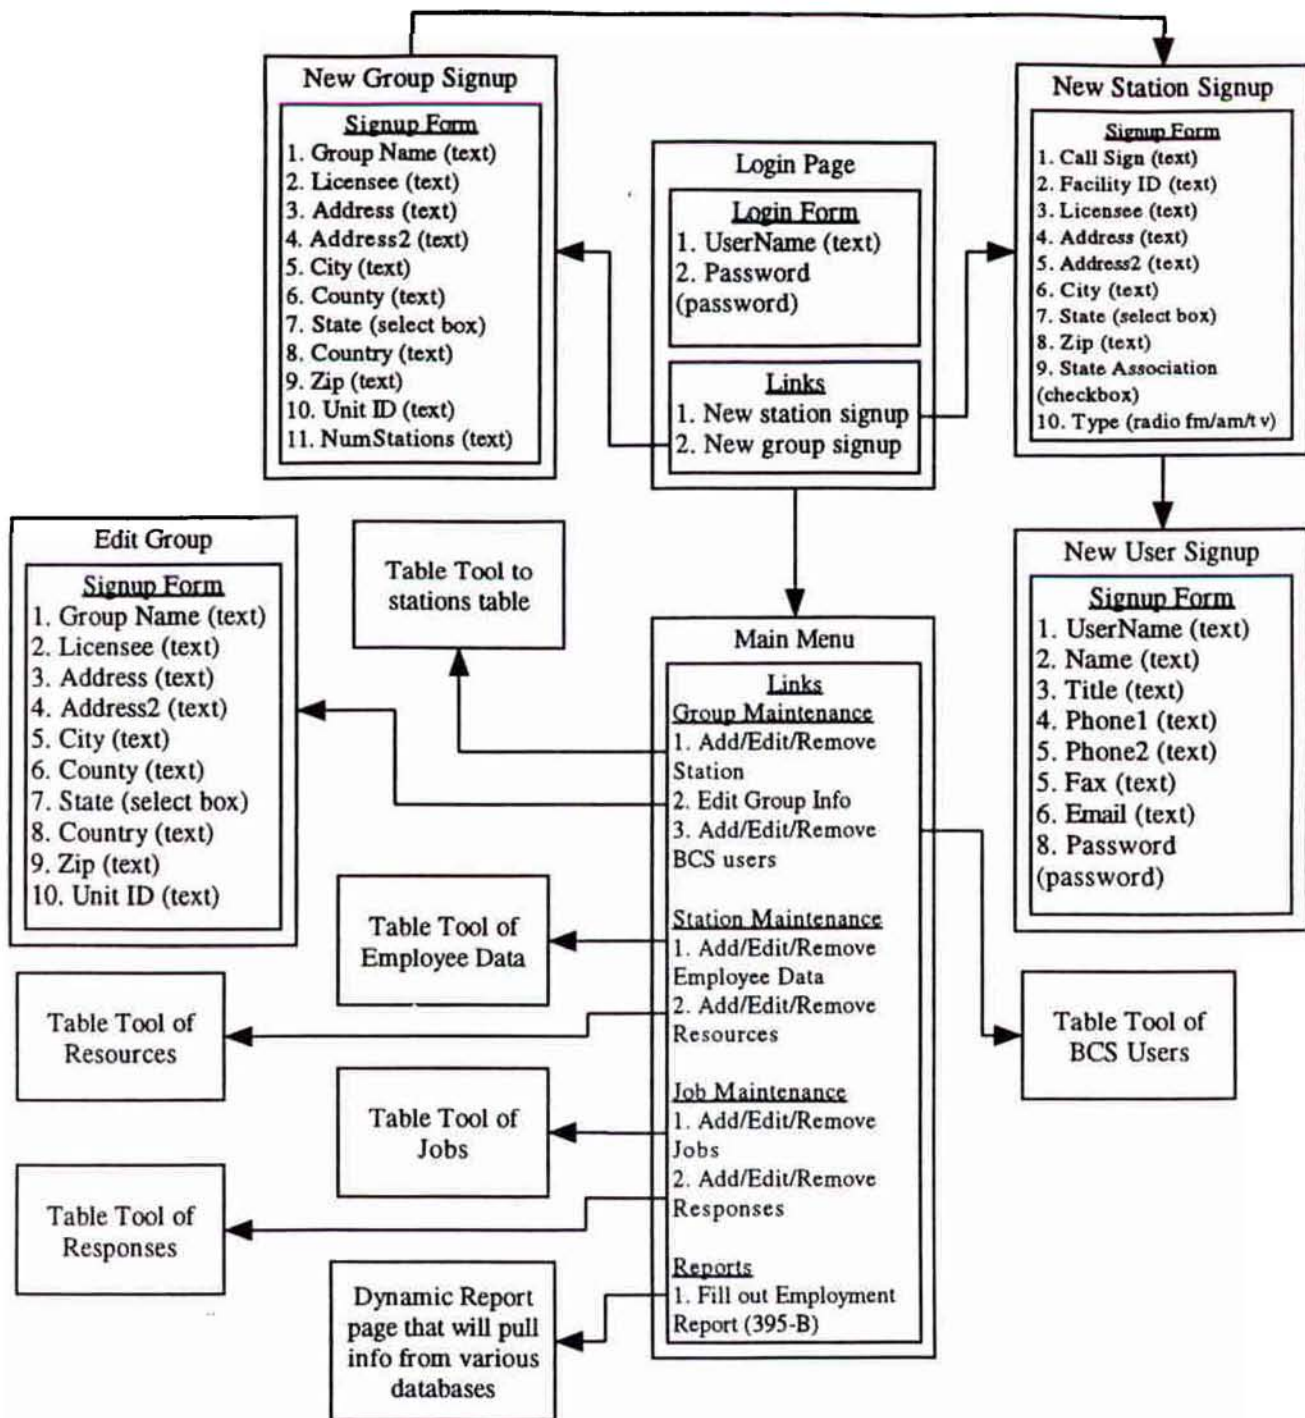

- **Job Fair Notices** – BCS subscribers can disseminate notices of their job fairs through the system, accessing the same resources used for their job vacancy searches.

- **Comprehensive reports** which categorically document each station's outreach efforts to give the stations full accountability. The format of these reports will conform to whatever FCC requirements may then be in force, and will be modified automatically as required by new regulations.

Subscribers have instant access to all their data and reports online and can print those reports at their location on demand.

## BCS System Page Layout

# Broadcast Compliance Services

## The Ultimate Workforce Development Tool

- Dramatically Broadens EEO Recruitment
- Saves Money and Manpower
- Reduces Litigation and Compliance Risk
- Reports on Demand for Full Accountability
